

CJX Aegis Incident Report

Company: SMC Industries

Title: Silent Attack Ignored by Security Team

Summary:

Multiple intrusion attempts went undetected by the company's security team due to lack of visibility and alerting systems.

Triggered Alerts:

brute_force_login, dns_tunnel, privilege_escalation

Impact:

Active intrusion ongoing for 14 days. Access to internal documents, employee credentials, and finance systems established. Systems appeared healthy due to silent persistence methods.

Action Plan:

Upon deployment, CJX Agent performed endpoint scans, revealed dormant malware and rootkits. Threat neutralized, alerting re-enabled, team notified. System logs now monitored with AI-based detection.
